

ON THE SPOT

AUGUST 2018

Dear friends,

Yes, we've been off the air for a bit, but here we are, back again! Some of you may still be in the dark about our wedding adventures. On March 13th, three kind Registry ladies did the deed, getting us properly married in the beautiful town of Whitchurch, Shropshire, western England. Centuries before us, something else very good came out of that town: the renowned Matthew Henry, born there in times of persecution. He managed to pen the most famous Bible commentary of all time. There are old and modern versions available that you may be able to pick up somewhere. Recommended!

On the 17th, we celebrated with family and friends among the local saints of Prees, nearby. They, wonderfully, gave us a great reception. Needless to say we are very grateful, especially to David & Angela Burton for their invaluable help and hospitality. Another generous act of David was "giving the bride away"....!

A **cold** honeymoon followed in Calverhall and Chester. The one sunny day was in Chester (see picture), when we were picked up by Darren and Alexia of Warrington, and spent a very special day with this lovely English-Spanish couple. We flew back on March 27th.

Five months of married life are already behind us. We look back *and* forward in wonderment. Great things our LORD has done; great things He is still to do!

This month, Andrew (my son), Alison and all three (big) kids came to spend a vacation nearby, which was extraordinary in more ways than one; good for all and especially for Myriam, getting to know them a bit better.

The **Work** is not diminishing; if anything, with postmodern thinking and acting, it is getting more complicated...

Marriage has stopped being relevant. Just moving in with each other is quicker and more practical. Then, whenever you feel like it, you can move out again... That is not to mention the now 'normalized' sexual adventures, as teenagers, before you even do any 'moving'.

The GLBT-agenda is being welcomed *and* actively pushed by all kinds of local & educational authorities... Children **must** be indoctrinated! And, talking about children, legalized pedophilia and incest are next on the "agenda".

Pornography is so pervasive that hosts of children have access even before they can read... The wonders of God's creation of reproduction are HORRIBLY distorted and presented like that.

Dress codes for women and girls have become such that men and boys can only sense an open invitation...

Abortion is the answer when babies, looking for a home to live, to love and be loved, announce their arrival... Such a nuisance! Just kill them off!

Everybody has gotten used to the drug-scene, but it has not gone away... The BBC reports that "fentanyl", a synthetic opiate, 40 times more potent than heroin, is now **deadlier** in the US than HIV, car crashes and guns...

Fentanyl may not have reached our area yet, but all the others certainly have. The underlying **Master Lie** is Darwinism:

You are evolved from 'other animals'! With death you stop to exist. There is no God to call you to account! Live it up!

While the 'god-of-this-world' is having a field day, **WE STILL HAVE A MESSAGE!** With Paul, the apostle, we say (Rom. 1:16): **"I am not ashamed of the gospel of Christ, for it is the power of God to salvation for everyone who believes."**

Satan knows he has little time left, so he's rolling out the big guns. Don't be "ignorant of his devices"! In Acts 3 & 4, Peter and John weren't ignorant *or* ashamed, and God honored their stand!

With Michael and Julie Chitty, all activities are going ahead in this beloved town and surrounding area, while long journeys abroad are considered with much prayer. On our website (see below) there is more and more solid material freely available in several languages.

Thank you for your prayerful interest!

And by the way, if you're in the UK, why not exit Summer with a big bang, at the great CREATION conference in London? Dates: **Sept. 21-22.** <https://creation.com/london2018>

Loving greetings in Christ from,

Jim & Myriam van Heiningen
